Welcome...

This is the first rally of 2012 and usually draws a record number of cars and members. Adare is conveniently located and with motorway access particularly for those travelling from Dublin and elsewhere.

We have been fortunate over the years with good weather. The terrain is flat with no hills at all. Our event takes place right at the start of Spring where the daffodils are in full bloom and the leaves just budding giving a general fresh country feel.

We hope that this year we will see a number of new members who have joined our Club over the past one and a half years on their first event. They will be most welcome.
